

# Signs

The entrance to Nalley Brown Nature Park will be the first impression for new visitors and a familiar welcome-back for frequent guests. The look and feel of the entrance needs to set the tone for this unique place of discovery and serenity. The sign design combines natural granitic boulders placed and angled to accent the polished slate stone engraved with the Nalley Brown logo. This arrangement, along with native plantings, will combine the essence of earth, mountains, stone, and landscape into one cohesive symbol that signals the visitors' arrival to Nalley Brown Nature Park.
